

IP Cabling Transmission

IP03

IP Camera Extender - Extend Cat5e to 800Meter for IP Application

Specifications:

IP03 IP extender is designed to extend any TCP/IP devices for long range transmission up to 1.2Km over existing cost effective CAT5 cable.

It is completely transparent to protocols, codes, and applications ensuring compatibility with any IP camera and its management software.

It is perfect solution for sending IP video links to remote camera installation that are beyond the 100 meters distance limit of Ethernet.

Features:

- IP03 Active IP Extender over CAT5
 - Identical to IP02, but over CAT5 cable instead of coaxial cable.
 - Long range transmission up to 1200 meters (Max.)
