TITANUS Embedded
Mini-Series

TITANUS ZEN is an ultraslim and stylish mini embedded NVR system, with pre-loaded GeoVision Professional NVR software. The TITANUS ZEN support up to 4 channels of GeoVision Megapixel IP cameras for networking surveillance. The unique and compact design is a perfect NVR system for small office, retails stores and home security.

TITANUS T5 and T7 mini embedded NVR Server is designed base on Intel® Embedded platform powered by 2nd Generation Intel® Core™ i7 Processors and Intel® Core™ i5 Processors highly suited to a wide range of digital surveillance especially for space critical applications.

This tiny machine capable to produce live video streaming for CCTV monitoring display, and decode the video streaming to video data with various video compression. With pre-loaded GeoVision IP Surveillance software, TITANUS mini embedded NVR can connect from 4-32ch of Megapixels IP cameras ideal for home surveillance, child care, small office, retail stores...etc. The technology advancement by **TITANUS i-Doctor** with Intel® Active Management Technology (Intel® AMT) and **TITANUS i-Shield** (McAfee®Application Control) enable TITANUS mini for remote system troubleshooting capability as well as malware treats prevention.

Model	TITANUS ZEN TA-1800	TITANUS Mini T5 / T7
Form Factor	Mini Desktop	Desktop
Hybrid	NVR only	NVR only
Max. Channels	4 Channels	16 / 24 Channels
OS	Windows 7 Embedded 64bit in SSD	Windows 7 Embedded 64bit in SSD
CPU Platform	Intel® Atom™ Processor	Intel® Core™ i5 / Intel® Core™ i7 Processors
Extended Storage Interface	USB (3.0) x 2 Mini PCIe x 1	eSATA x 1 USB (3.0) x 1 Mini PCIe x 2
Surveillance System	GeoVision	GeoVision
Remote Manageability	N/A	Yes, TITANUS i-Doctor
System Protection	Optional	Yes, TITANUS i-Shield
Wifi support	Yes	Yes
Browser	iPhone / iPad / iPod Touch / Android Smartphone / Andriod Tablet	
Dimension (W x H x D)	240 x 163.6 mm	200 x 35 x 153.3 mm
Application	Home, Child Care, Clinic, SOHO
